The youth that parts his hair at the equator, sucks the head of a rattan cane, squints with dreamy-looking eyes through airy glasses, No. 5 boots and No. 6 feet, sports a double-breasted watch-chain to which is anchored a \$4 watch, wears a horse's hoof scarf-pin and sporting-dog studs and says, "denced," "aw, yes, damme," and "don't you fail to remember it," has a soft thing in this world. He wears it in his hat just beneath the unusually thick skull.

Pinkeye, the strange disease now prevailing among horses in many cities and towns, is described by an exchange. The affected animal becomes suddenly weak, loses his appetite, a burning fever rages, a peculiar white matter exudes from the eyes, the breath becomes excessively hot, the legs at the knee and back joints swell, an unquenchable thirst rages, a terrible diarrhoea sets in, and the passages have no more consistency than water. The medicine used in these cases is simple condition powders to give the animal strength. So far they have been very successful.

SANTA CLAUS has engaged Humphrey's Drug and Book store for his warehouse for the Holidays.

We call your attention to the advertisement of Simmons' Liver Regulator, which appears in the paper of to-day. This standard remedy, the only genuine of which is manufactured by J. H. Zellin & Co., and of which they are the sole proprietors, does not deserve to be classed with the many "patent" nostrums so liberally advertised throughout the country. It is one of the very best preparations in use, and is recommended by the regular practitioners of medicine. It has a large sale in this city, and can be found in all our drug stores. A bottle or package should be found in every family, as its judicious use is almost sure to prevent a bilious attack if taken when the symptoms first show themselves.

NEW REMEDIES.—It is really a great blessing to humanity and especially the afflicted to be able to secure all the new and reliable medicines which take the most prominent part in alleviating pain and easing the suffering. Saur makes a specialty of procuring at all times, everything that is new and reliable in the line of medicines which would be most likely to benefit mankind, hence it has become almost a by-word to say that if you can't find any particular remedy which fancy may perchance dictate at any of the drug or pharmacy stores, if you will go to it. This is a truth which has been proven many times by people finding just the thing they wanted and could not or did not find it anywhere else.

For a good hand-made boot go to the new shoe store of Freese Bros.

A PLEASANT AFFAIR.—There was at least one surprised man last week. On the first of November the friends and neighbors of Mr. Fenton Brooks assembled at his residence, to the number of about a hundred and fifty, to celebrate his fifty-seventh birthday. An abundance was provided for the inner man as the writer can testify. After the most heroic endeavors on the part of the guests to clear the cloth, they had to confess failure, and retired to the sitting room, where the Rev. C. L. Bartlow, of Fostoria, in behalf of the friends of Mr. Brooks, presented him with a number of testimonials of their esteem and regard.

The first was an easy chair from his family. No sooner was he seated in it than a spittoon was placed by his side, a hat put on his head, a handkerchief tied around his neck, another put in his pocket, and a bible stand set before him. Much affected by this, Mr. Brooks returned thanks in a few heartfelt sentences, after which the company dispersed, having enjoyed a good time, and with many wishes for the continued prosperity of the gentleman whom they had assembled to honor.

AN IDEA

And a very sound one too, many people have, that doing with quinine is harmful. Eminent medical authorities condemn it, and experience has proven its use to be entirely unnecessary, for that infallible Acme Cure and Anti-periodic, Ingram's Acme Pills, are a never failing remedy for all Malarial Diseases. They are the only reliable substitute known for quinine, and the only Acme Medicine that a druggist will warrant to cure. 75 pills in a box. 30 cents a box. Sample package free at all drug stores.

In the beginning of November days, when the warm summer days are over and the decaying leaves around us are falling, telling us of the approaching winter these young friends at the marriage altar took each others hands to walk together through life, with no parade or show they came quietly with becoming modesty and seriously they assumed the solemn vows and the mutual obligations that made them one "till life shall end," then quietly stepped into their carriage that was awaiting them at the gate and were driven away. May their deportment ever be as becoming as in this hour, and their days of life be pleasant as the marriage day. J. W.
